Austin, TX

## Education

Master's in Computer Applications  
**Osmania University - India**

## Skills

- Enterprise IT Architecture
- IT Architecture Standards and Best Practices
- Technology Evaluation and Adoption
- Cloud-based Infrastructure
- Full Stack Technologies
- Technical Leadership and Mentoring
- Critical Thinking - Innovative Solutions
- Manage and address technical debt

## About Me

Experienced architect proficient in leading multi-disciplinary teams in the design, development, and implementation of scalable cloud infrastructures. Possesses comprehensive knowledge of advanced technologies and frameworks, demonstrating a talent for devising creative solutions to intricate technical obstacles. A decisive and dependable leader with a results-oriented and determined approach to projects.

## Work Experience

### ARCHITECT

2015–Current

#### LIBERTY MUTUAL GROUP

- Spearheaded the design and implementation of numerous applications leveraging modern technology stacks such as React, Node.js, and AWS services, ensuring optimal performance and scalability that improved system performance by 50% and reduced downtime by 30%
- Provided strategic guidance to stakeholders to define technology roadmaps and drive innovation in data and infrastructure platforms.
- Implemented streamlined development workflows to optimize team efficiency, reducing time to market and ensuring consistency through the creation of patterns for repetitive tasks.
- Proactive and hands-on approach to problem-solving, consistently delivering innovative solutions to complex technical challenges. Strong advocate for performance tuning and optimization to enhance system efficiency.
- Demonstrated exceptional leadership acumen by mentoring and empowering team members to excel in their roles resulting in a 30% improvement in team productivity.
- Managed multiple high-priority projects concurrently, meeting strict deadlines while maintain quality standards.
- Championed agile methodologies and CI/CD best practices to streamline development processes and enhance project delivery efficiency.

### TECHNOLOGIST

2008–2015

#### LIBERTY MUTUAL GROUP

- Led implementation projects for Oracle Incentive Compensation and OA Framework Custom Module
- Developed technical designs, unit test documents, and code base for customizations and interfaces
- Mentored teams and demonstrated expertise in Oracle HCM, OA Framework, JDeveloper, Workflows, and other Oracle modules

## Awards

### Liberty Mutual IT President's Award

Recognized for exceptional achievements with the prestigious LM Presidents Award in 2015
